## **DESERT ROCK CLIMBING**

## RED ROCK, NV & JOSHUA TREE, CA EQUIPMENT CHECKLIST

The primary goal of any climber should be to have everything they need for a "worst case scenario". Always be sure to bring extra layers, extra food and water, and a first aid kit. Even if you're going for a casual day of rock climbing, it's better to be over prepared than under prepared.

This list was designed for the "worst case scenario," a trip with significant inclement weather. In serious conditions it's not uncommon for a climber to need every piece of clothing and equipment on this list. However, if a program does not encounter significant weather, there may be items here that are not used. As you prepare for your trip, it's important to plan for the worst and hope for the best.

At the start of the day, your guide will ensure that everyone is adequately prepared for the day. They will also be able to refine your day pack to make sure that you bring exactly what's needed given the forecast. It is acceptable to bring too much clothing or equipment to your initial meeting. And it is acceptable to bring that you have questions about. Extra equipment can always be left behind in the van.

**Red Rock, NV:** The Red Rock Canyon National Conservation Area is located in the high desert about 20 miles west of Las Vegas. In the spring (March and April) and the Fall (October and November), when climbing conditions are at their best, daytime highs often climb to 80°F with nighttime lows near 40°F to 50°F. The winters are normally cool and snow often covers the ground deep in the shaded canyon floors. Rain or snow occasionally falls, but the vast majority of days are sunny and fair. The weather can be breezy, especially high on rock routes.

**Joshua Tree, CA:** Joshua Tree National Park is located in the high desert of Southern California. The winters are generally cool with highs in the 60's and lows at night in the 30's. Rain, or even snow, occasionally falls, but most days are sunny and pleasant. Routes in the shade are often too cold in the middle of the winter, but those in the sun seem just right. The weather can be breezy, and it is a good idea to bring a lightweight wind jacket.

**Rentals:** Equipment that is available for rent through the AAI is designated with a "Rent" check box. These items must be requested for rent and paid for **prior** to your trip start, this can be done either via email (<u>sw-coordinator@alpineinstitute.com</u>) or phone (360-671-1505).

Call or Email the Equipment Shop for Advice on Gear: Please feel free to contact the shop to help you get ready for your trip. Your comfort and safety depend on being well equipped. Whether you get your gear from us or just get advice, we're here to help you prepare.

Call: (360) 671-1570 Email: <a href="mailto:shop@AlpineInstitute.com">shop@AlpineInstitute.com</a>

Please be sure to check the forecast several days prior to your course to ensure that you are properly prepared.

NOAA Red Rock Canyon Weather

NOAA Joshua Tree National Park Weather

Clothing	Packing Checklist
Sun Hat Ideally fits under your climbing helmet. Baseball style hats with a button on top are generally not recommended. Visors or athletic hats from companies like Ciele or Skida are substantially more comfortable, vent better, and are easier to clean and dry out.	☐ Own ☐ Buy
Buff/Neck Gaiter (Optional) Look for one that is UPF rated.	☐ Own ☐ Buy
Sun Glasses Preferably with UVA/UVB protection	☐ Own ☐ Buy
Headlamp Bring extra batteries, or if it has a rechargeable battery, make sure and bring a charger. 200-350 Lumens is an ideal range.  ★ Example : Petzl Swift RL, Petzl Actik Core	☐ Own ☐ Buy
Sports Bra Wool or synthetic, comfort is key. Avoid bras with adjusters and clasps that could get compressed by your pack straps. Racerbacks are popular options for keeping straps in place.	☐ Own ☐ Buy
Sun Hoody A lightweight, wool or synthetic sun hoody is ideal. Look for one with UPF 30+ sun protection. UPF Clothing protects better from the sun than sunscreen.  ★ Examples: Patagonia Capilene Cool Daily Hoody, Outdoor Research Echo, Rab Pulse	☐ Own ☐ Buy
Active Insulation Layer Lightweight "gridded fleece" or lightweight synthetic insulated jacket. Hood preferred.  ★ Active insulation jacket weight at 40g/m2 and heavier Insulation jacket at 60g/m2 or 80g/m2  ★ Example: Patagonia R1, Patagonia Nano Air, Arc'teryx Proton LT	☐ Own ☐ Buy

Soft Shell Jacket or Windproof Jacket A soft shell jacket is considered an 'action layer'. Its materials are designed to stretch and breathe while also maintaining wind and water resistance. This allows the user to leave this jacket on for a wide range of temperatures and conditions throughout the day, without the hassle of constantly changing layers.  Wind proof jackets are lightweight and packable, but lack the breathability and stretchy nature of the soft shell. Windproof jackets are ideal for blocking wind and light precipitation during low output activities.	Own Buy
Insulation Jacket  AKA the "puffy." Down or Synthetic. This piece is worn in cold conditions or when not moving. Hood preferred. If choosing Down, water-resistant Down treatment is preferred to help prevent matting and loss of insulating ability if the jacket gets wet.  ★ Example: Arc'teryx Nuclei FL, Patagonia DAS light, Patagonia Down Sweater, Arc'Teryx Cerium LT.	Own Buy
Hard Shell Jacket (Waterproof Rain Jacket) (Optional - depending on weather)  Non-insulated jacket with a waterproof and breathable membrane. 3-layer construction is recommended. It must have a hood, ideally a helmet compatible hood. When sizing make sure it can fit over other layers.  ★ Materials: Gore-Tex, eVent, Drilite, H2NO, Pertex Shield  ★ Example: Patagonia Torrentshell, Arc'Teryx Alpha AR, Mountain Equipment Lhotse.	☐ Own ☐ Buy
Undergarments Wool or synthetic.	☐ Own ☐ Buy
Soft Shell Pant Thin, weather-resistant, breathable, and stretchy.	☐ Own ☐ Buy
Hard Shell Pant (Waterproof Rain Pants) ( <i>Optional - depending on weather</i> )  Non-insulated, waterproof and breathable membrane. Full side zips are recommended. If there is rain in the forecast, bring them.  ★ Materials: Gore-Tex, eVent, Drilite, H2NO, Pertex Shield.  ★ Example: Patagonia Torrentshell, Arc'Teryx Beta Pant	☐ Own ☐ Buy
Socks Wool or synthetic socks that are at least mid calf height.	☐ Own ☐ Buy
★ Example : Darn Tough Coolmax Lightweight	

Climbing	Packing Checklist
Harness Make sure the harness has a belay loop and gear loops. When sizing, it should fit over your clothes when you have multiple layers on. A more robust harness is ideal for this program.  ★ Example: Petzl Adjama, Arc'Teryx AR-395a	☐ Own ☐ Buy ☐ Rent*
Helmet Must be UIAA rated for climbing. Be aware that foam, break-away style helmets like the ones listed below are susceptible to damage if being loaded in a checked bag.  ★ Example : Petzl Meteor, Black Diamond Vision.	☐ Own ☐ Buy ☐ Rent*
Slings Bring one 48in.(120cm) and one 24in.(60cm) pre-sewn sling. Slings must be UIAA rated for climbing. Available for sale in our equipment shop.  ★ Example : Mammut Contact, Black Diamond Nylon Runner	☐ Own ☐ Buy
Cordelette A 180cm-240cm length sling or 18-24 feet of 6mm accessory cord can be used as a cordelette.  ★ Example : Mammut Contact, Bluewater Titan Cord	Own Buy
Belay Device Bring an auto-blocking device that accepts two ropes. Available for sale in our equipment shop.  ★ Example : Black Diamond ATC Guide, Petzl Reverso	☐ Own ☐ Buy
Carabiners  Must be UIAA rated for climbing. Available for sale in our equipment shop.  - Four large pear shaped munter-style locking carabiners.  - Five non-locking wire gate carabiners.  ★ Example : Petzl Attache, Camp Photon Wire	☐ Own ☐ Buy
Rappel Backup The Sterling hollow Block or Beal Jammy are recommended for their heat resistant properties. A 4ft length of 6mm nylon accessory cord will also suffice.	Own Buy
Assisted Braking Device Strongly recommended but not required. For belaying.  ★ Example: Petzl GriGri, Edelrid Megajul, Black Diamond ATC Pilot	☐ Own ☐ Buy
Nut Tool (Optional) For cleaning traditional protection.	☐ Own ☐ Buy
Rock Shoes Focus on comfort, so they can be worn all day. Avoid technical or aggressive rock shoes with a downturn. Avoid curled toes when sizing.  ★ Example : La Sportiva Tarantulace, La Sportiva TC Pro	☐ Own ☐ Buy ☐ Rent*
<b>Belay Gloves</b> Lightweight and breathable gloves with a durable leather palm are ideal.  ★ Example : Petzl Cordex	☐ Own ☐ Buy

Multi-Pitch / Day Pack 20L to 35L is an ideal size. Used for multi pitch climbing.	☐ Own ☐ Buy
Rock Climbing Rack (Optional) Optional. If you have it then bring it. Make sure and mark your gear so it doesn't get mixed up. Nailpolish is the best way to permanently mark your gear, tape is strongly discouraged as it tends to fall off and become trash.	☐ Own ☐ Buy
Chalk Bag and Chalk (Optional) Optional, nice to have for hot days.	☐ Own ☐ Buy
Crack Gloves (Optional) Optional. More environmentally friendly than using tape.  ★ Example: Ocun Crack Glove	☐ Own ☐ Buy
Camping Optional - only needed if camping	Packing Checklist
<b>Tent</b> 3 season tents are appropriate for this course's camp locations.  ★ Example 3-Season : Big Agnes Copper Spur, REI Half Dome	Own Buy
Sleeping Bag Synthetic or Down. 20°F to 30°F (-6°C to -1°C) is an appropriate temperature rating for this course's camp location.  ★ Example: Mountain Equipment Fireflash (5), Western Mountaineering Alpinlite (20), Rab Mythic Ultra 180 (32)	☐ Own ☐ Buy
Sleeping Pad One inflatable or closed cell foam pad.	Own Buy
Stove and Fuel Liquid fuel or canister stove.  ★ Example : Soto Windmaster, MSR Windburner	☐ Own ☐ Buy
<b>Pots</b> Bring one 0.5L to 2L pot depending on what you are planning to cook.	☐ Own ☐ Buy
<b>Utensils</b> Don't forget the official "most forgotten item ever;" the spoon, or spork. Long-handled spoons make stirring hot liquids safer, and metal ones tend to not break as easily in cold temperatures.	☐ Own ☐ Buy
Bowl Bring one.	☐ Own ☐ Buy
<b>Lighters</b> Bring two.	☐ Own ☐ Buy

Hydration 3L capacity is recommended, though some people need more.	Own Buy
A common approach is to bring a 2-3 liter bladder and a 1 liter hard sided bottle. The bottle is an important backup to the bladder if it gets punctured. A hard-sided bottle may also double as a mug for hot water, though not every bottle is designed to hold boiling water.	
Food You are responsible to bring your own food for the duration of the course. Please consult our meal planning page.	☐ Own ☐ Buy
Other Essentials	Packing Checklist
Toothbrush and Toothpaste Travel size recommended.	☐ Own ☐ Buy
Hand Sanitizer and/or Wet Wipes Required. Used after going to the bathroom and before eating. Wet wipes can be used for the "mountain shower."	☐ Own ☐ Buy
Toilet Paper The provided solid waste bags have a small amount of toilet paper with them, but most people do not find this to be adequate. Estimate how much you'll need for a program of this length and place that in a plastic zip lock bag. An extra zip lock bag can be helpful for pack-out of used paper. If you plan to use wet wipes, be wary of scented or exfoliating types as these can be an irritant for some people.	☐ Own ☐ Buy
Pee Cloth (optional) A reusable, antimicrobial pee cloth. Used in place of toilet paper or wet wipes for cleanup.  ★ Example : Kula Cloth	
Urination Devices (optional) Pee funnels such as the GoGirl or Freshette. Rigid pee funnels hold their shape better. Used in conjunction with a pee bottle, or while on a rope team. These can help mitigate the need to squat.  ★ Example : Freshette	☐ Own ☐ Buy
Menstrual Cup (optional) There are many things to consider about backcountry menstruation, click on the link below for more information. Click here for more info  ★ Example : Diva cup, Saalt, Lunette	☐ Own ☐ Buy
Sunscreen At least SPF 30+, zinc based is preferred. Small travel size tubes are recommended so you can put them in a close by pocket for easy access.  ★ Example : ZBlok 45, 2oz containers are a nice size.	☐ Own ☐ Buy
Lip Balm Make sure it is SPF rated.  ★ Example : Blistex Gold Five Star Protection SPF 30	☐ Own ☐ Buy

Personal First Aid Kit  □ Band aids □ Blister treatment □ Prescription drugs □ Ibuprofen etc. □ If you wear contacts make sure and have spares if you can't see without them.	□ Own □ Buy
<ul> <li>Repair Kit</li> <li>□ Inflatable sleeping pad patch kit</li> <li>□ Duct tape (Can be wrapped around trekking poles or water bottle. Gorilla Tape tends to be the best brand for the mountains.)</li> <li>□ Zip ties</li> <li>□ 6-10 ft of 3mm accessory cord</li> <li>□ 2 Trash bags that are big enough to line the inside of your pack with.</li> </ul>	□ Own □ Buy
Other Optional Items  The items below are not required, although many are nice "luxury" items that can make your expedition more enjoyable.	Packing Checklist
Entertainment Books, games, cards, music player, kindle, ect.	☐ Own ☐ Buy
Portable Charging Device Phone charger, battery pack, or solar panel.	☐ Own ☐ Buy
Ear Plugs For defense against snoring and high winds.	☐ Own ☐ Buy
Insect Repellent This is a nice item to have just in case.	☐ Own ☐ Buy
Camera Phone cameras or small point-and-shoot cameras are preferred. SLR cameras are not recommended due to their size and bulk.	☐ Own ☐ Buy
Comfortable Clothing and Footwear Breathable footwear like flip-flops as well as some comfortable cotton clothing can be nice to change into after you get back to the van.	☐ Own ☐ Buy
Car Charger Consider bringing an extra battery pack as well, having a lot of people using car charger cables is difficult.	Own Buy
