

## SINGLE PITCH INSTRUCTOR COURSE & EXAM

### EQUIPMENT CHECKLIST

Red Rock, NV, Mt. Erie, WA, & Leavenworth, WA

The program locations for the Single Pitch Instructor course have been chosen to provide the participants with an ideal learning environment. Many of the areas were selected for their mild weather conditions and easy access to crags.

Participants will be able to lodge in hotels near the crag, or stay at nearby campgrounds. Food can be purchased at grocery stores before and during the course.

**Red Rock:** The Red Rock Canyon National Conservation Area is located in the high desert about 20 miles west of Las Vegas. In the spring (March and April) and the Fall (October and November), when climbing conditions are at their best, daytime highs often climb to 80°F with nighttime lows near 40°F to 50°F. The winters are normally cool and snow often covers the ground deep in the shaded canyon floors. Rain or snow occasionally falls, but the vast majority of days are sunny and fair. The weather can be breezy, especially high on rock routes.

**Mt. Erie or Leavenworth:** In Washington the preferred climbing season extends from about late April, through the summer, to the end of September. Summer highs can be up in the 80's and 90's but more commonly are in the 70's to low 80's. Nighttime lows are usually around 50°F to 60°F. Rain is not uncommon, particularly before mid-June. A typical day in the summer might begin cool and pleasant, become fairly hot to the lower 80's by afternoon, and drop to a night-time low around 50°F.

Clothing	Packing Checklist
<b>Sun Hat</b> Ideally fits under your climbing helmet. Baseball style hats with a button on top are generally not recommended. Visors or athletic hats from companies like Ciele or Skida are substantially more comfortable, vent better, and are easier to clean and dry out.	<input type="checkbox"/> Own <input type="checkbox"/> Buy
<b>Sun Glasses</b> Preferably with UVA/UVB protection	<input type="checkbox"/> Own <input type="checkbox"/> Buy
<b>Headlamp</b> Bring extra batteries, or if it has a rechargeable battery, make sure and bring a charger. 200-350 Lumens is an ideal range. ☆ <i>Example : Petzl Swift RL, Petzl Actik Core</i>	<input type="checkbox"/> Own <input type="checkbox"/> Buy
<b>Sun Hoody</b> A lightweight, wool or synthetic sun hoody is ideal. Look for one with UPF 30+ sun protection. <b>Soft Shell Jacket or Windproof Jacket</b> A soft shell jacket is considered an ‘action layer’. Its materials are designed to stretch and breathe while also maintaining wind and water resistance. This allows the user to leave this jacket on for a wide range of temperatures and conditions throughout the day, without the hassle of constantly changing layers. Wind proof jackets are lightweight and packable, but lack the breathability and stretchy nature of the soft shell. Windproof jackets are ideal for blocking wind and light precipitation during low output activities. ☆ <i>Example SoftShell: Black Diamond Alpine Start Hoody, Rab Borealis, Patagonia Houdini Air.</i> ☆ <i>Example Windproof Jacket: Patagonia Houdini, Arc'teryx Squamish Hoody,</i>	<input type="checkbox"/> Own <input type="checkbox"/> Buy
<b>Insulation Jacket</b> AKA the “puffy.” Down or Synthetic. This piece is worn in cold conditions or when not moving. Hood preferred. If choosing Down, water-resistant Down treatment is preferred to help prevent matting and loss of insulating ability if the jacket gets wet. ☆ <i>Example: Arc'teryx Nuclei FL, Patagonia DAS light, Patagonia Down Sweater, Arc'Teryx Cerium LT.</i>	<input type="checkbox"/> Own <input type="checkbox"/> Buy

<b>Hard Shell Jacket (Waterproof Rain Jacket)</b> Non-insulated jacket with a waterproof and breathable membrane. 3-layer construction is recommended. <b>Undergarments</b> Wool or synthetic. Long, compression style undergarments can help reduce inner thigh chafing.	<input type="checkbox"/> Own <input type="checkbox"/> Buy

<b>Climbing Rope</b> 60-meter dynamic climbing rope. Ideal diameter 9.4-10mm. ★ <i>Example : Mammut crag classic 9.8</i>	<input type="checkbox"/> Own <input type="checkbox"/> Buy

Estimate how much you’ll need for a program of this length and place that in a plastic zip lock bag. An extra zip lock bag can be helpful for pack-out of used paper.
